## Food from Place to Place

What if you had to grow all your food? Growing crops is not easy. In some years not much rain falls. Insects also try to eat crops.

Long ago, people ate only what they or their neighbors grew. Now food comes to us from faraway places. Farmers grow food all over the country. Then people pack food in cans or other packages to keep it fresh. Food is sent to supermarkets on trains or in large trucks.

TURN

*Write your answers on a separate sheet of paper.*

## Visualizing

1. What pictures did you see in your mind as you read the article?

---

---

## Food Long Ago and Today

2. From where did people get food long ago?

---

---

3. What is one way that people keep food fresh?

---

---

4. List two ways that food gets to a supermarket.

---

---

5. Do you think people from long ago ate as many kinds of foods as your family eats today? Explain.
